Desking & Screen Guide

A little bit about us...

History

DEOS Group have been trading since 1978 and we are rightly proud of our successful trading history. We have become one of the UK's largest managed print and office solution providers, with four specific divisions specialising in office stationery, bespoke office design, environmentally focused office products and Managed Print Solutions. All four are geared towards helping our clients, from home workers to large enterprises, take the pain out of the day to day running of the office.

Managed Print Solutions

We individually tailor each of our Managed Print Solutions to fit a client's specific needs with a particular emphasis upon right sizing, rather than like for like replacements. Each of our agreements are drawn up individually, as opposed to a "one size fits all" approach and we treat each project as an individual.

Contrary to opinion, Managed Print Solutions is not all about device consolidation, more it is about providing a fleet of devices that are technically, environmentally and financially productive whilst offering elevated levels of user experience.

The user experience is of particular importance to us, as your colleague's satisfaction directly relates to the success of our project.

Partnership

In terms of hardware, we have worked in partnership with Ricoh and Lexmark for many years as they both have a reputation for excellence in, not only their products and their reliability, but also in their innovative approach to technology which is achieved through their continual investment in R&D. We are very proud to be Premier Partners with both of them.

Financially, we partner with the world's leading and most innovative funders and we utilise whoever is best suited to the individual requirements of the client. We place a particular focus upon the most financially effective method of procurement, thereby ensuring that we provide best financial advice as well as best technical and environmental advice. In today's environment shorter subscription agreements prevent you from being locked into long term leases with obsolete equipment – we specialise in this future-proof approach.

Progress

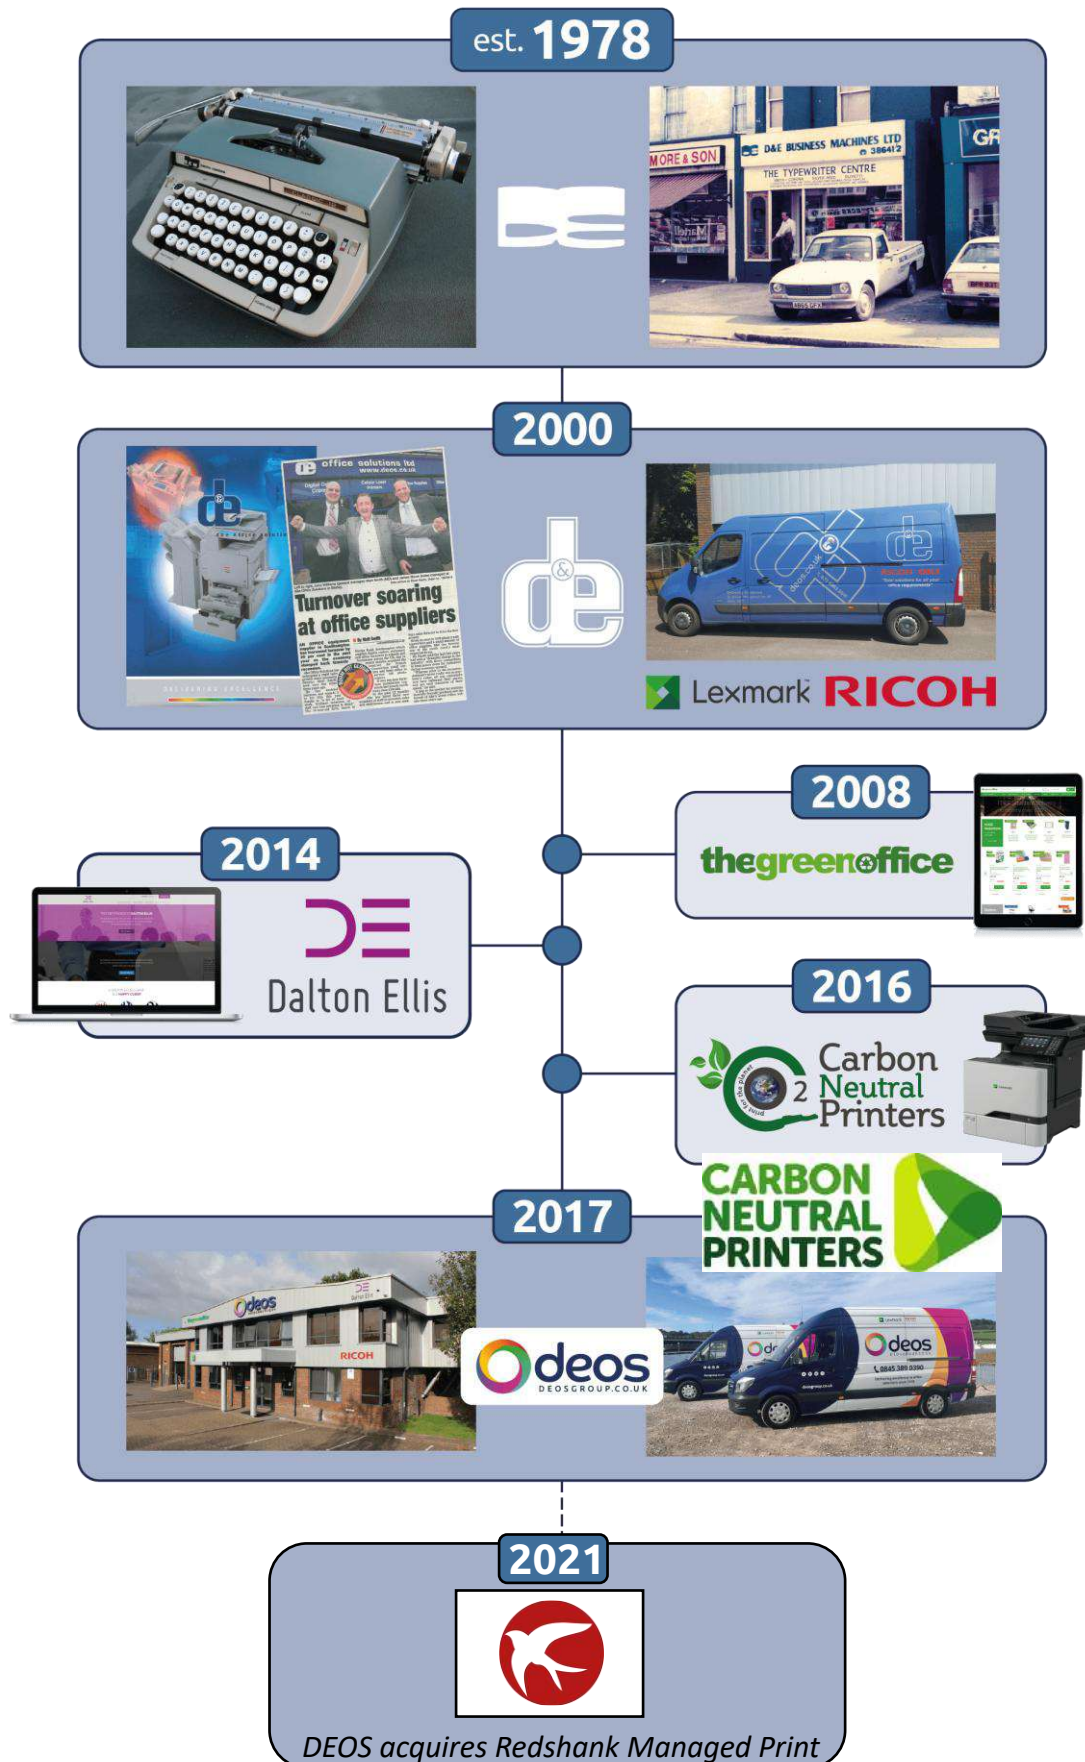

We are proud to state that despite the financial challenges which many companies have faced in the recent past, our year end March 2018 showed an increase in turnover of 20% upon the previous year. We have budgeted for a further 20% growth for this year to ensure that the growth remains manageable, whilst still challenging.

In regard to the strategy required to manage this growth, we have also budgeted for the necessary increases in headcount required to ensure that we continue to deliver the service excellence that we have become renowned for.

Customer Satisfaction

Attention to detail is paramount to what we do in every way; from the minute you call us you can be sure that you will hear a friendly voice that is willing to help you in every way. Unlike some of our competitors, we do not use call centres. You will call directly to one of our friendly ambassadors and be able to speak to someone immediately who can assist you. Should we be unable to answer your query immediately on the phone then your account manager will be able to call you back the same day.

Our History

Service and Structure

Heritage

DEOS Group have been specialists in the supply of office equipment and stationery since 1978. The company was founded by David and Eileen Smith and remains a family run business to this day. We are rightly proud of our successful trading history, and our motto is Deliver Excellence. In our long history of trading, we continue to supply all types of business sectors, ranging from sole traders; healthcare professionals; retail outlets and the hospitality industry to name a few.

We are proud to boast our commitment to all our customers new and longstanding some of which for over 10 years including; Care UK, Southampton University Hospital Charities and GP Practices across the country to high street big names; River Island, Harry Ramsden and Tortilla as well as Malmaison Hotel and Suffolk County Council.

We believe that everyone matters, and our staff are our ambassadors. In everything they do, they are representing DEOS Group, so we repeat the mantra day in, day out: deliver excellence. In return for that service delivery we, in turn, deliver excellence to our colleagues, which probably explains why our average staff tenure is over 15 years.

Service

Our high level of service is passed to you; we believe in a personal service which is why we don't use call centres. You can speak to the relevant person immediately or if they are unavailable, you will receive a call or email back within the hour. What makes us unique is that you will have two dedicated account managers so you will always be able to contact us, Mon-Fri between 8.30am-5pm. We believe this level of personal customer care explains why our clients stay with us too.

We do more than office supplies and can offer you our full range of services to keep your day-to-day business functioning. Our comprehensive range of services include; Managed Print Services, to a complete office fitout incorporating office supplies and stationery along the way. We encourage all customers to make ethical choices with environmentally sustainable supplies through "The Green Office" division and offer a complete green package with "Carbon Neutral Printers".

Supply Chain

Originally based solely in Southampton, we now also have locations in London and Peterborough but, no matter where we operate from, we always keep an eye on the attention to detail. Our network of warehouses and long-standing relationships with our suppliers means that we have a strong supply chain with a portfolio expanding over 50,000 products. Equally we partner with four of Europe's largest stationery wholesalers meaning we have a strong purchasing power and consistent availability of product. We also provide a unique offering in which we can dedicate an area within our own warehouse and allocate specific resources to ensure your complete core product list is consistently available providing stock continuity for your business.

We offer multiple delivery options and aim to deliver within 48hours* as standard. In the unlikely event that a product is unavailable we contact the requestor immediately, offering a suitable alternative product at the same cost. All deliveries are dispatched with a delivery note detailing, product code, description, quantity, purchase order number and delivery address.

Office Design, Delivery and Installation

To maintain a standard of high quality we have invested in the best materials, using reputable board manufacturers, buying quality components and giving our staff extensive training. Every product we manufacture undergoes rigorous quality checks throughout the production process. This way we are confident our furniture is manufactured to the highest possible standard and will withstand the vigorous challenges of office life.

We will always listen to our customers, if there is a particular finish they require we will endeavour to obtain it when practicable. We are also on hand to discuss new ideas and designs to keep ourselves and our customers at the forefront of current trends and styles.

Our projects generally have lead times between 2-4 weeks but sometimes longer depending on the amount of bespoke items are required to be cut. We endeavour to deliver within our estimated lead times. However, if there are any delays under no circumstances will DEOS be liable for loss due to delayed installations.

From the moment your order is placed and received by us you will be kept up to date with its progress.

Terms & Conditions

Guarantee

All products quoted have a 5-year guarantee for furniture in normal 8-hour office use. Where furniture is used on a continuous 24-hour basis a 12-month guarantee is provided unless otherwise stated.

This guarantee does not cover fair wear & tear or misuse/mistreatment of our furniture.

Dimensions and Specifications

The utmost care is taken to ensure the accuracy of dimensions.

Please note that dimensions should be considered to be approximate and that we cannot be held responsible for any errors or omissions.

Business Supplies

We've come a long way since 1978, but we remain true to our roots and pride ourselves on delivering excellence with over 30,000 product lines that are added to daily to ensure that we can cater for even the most unusual of requirements. Although more traditional office supplies and stationery still accounts for a large percentage of goods supplied, the ever-changing needs of workers, both home and office-based means that we continually seek out and add to our product portfolio. This is exemplified when our procurement team began sourcing large amounts of PPE, sanitising, cleaning and virus protection products to help fight the COVID-19 pandemic which hit the world at the beginning of 2020. And now most recently Flu and COVID test kits, so our customers can provide additional safety to their staff and colleagues.

Ethically & Environmentally Sourced Proc

In 2008 we launched TheGreenOffice, we wanted to make a change to the way that users viewed and used their supplies. We already had a good range of eco products in our offering and decided that we could actively support our customers into making greener choices with a little encouragement. Today we are so proud to be able to supply over 200 account customers with greener choices as well as over 150 internet orders daily.

In 2016 we began Carbon Neutral Printers, we had already accomplished changing the purchasing mind set around office supplies, so we set about changing the way our customers consumed paper and print. Today our story is of success; with over 4,000 devices benefiting from green accredited paper inclusive contracts, reduced running costs and 100% landfill avoidance utilising free toner recycling to accomplish total sustainability.

In 2024 we further pushed our environmental mission with a simple goal; prevent excess office furniture from ending up in landfills. We aim to reduce waste and promote sustainability in the work place by diverting these items. It's a crucial step towards a greener and more responsible practice and future. Landfills are a significant source of pollution, and the amount of waste generated by businesses is only increasing. To address this issue, we have taken it upon ourselves to initiate a mission to reduce the amount of redundant office furniture that ends up in landfills.

BESPOKE

Create a workspace that reflects your company's unique style with our bespoke office furniture, crafted in the UK. We design and manufacture custom furniture solutions that blend functionality, aesthetics, and comfort to meet the specific needs of your business. Whether you require executive desks, collaborative workstations, or tailored reception areas, each piece is carefully designed to maximize space and efficiency.

Our bespoke office furniture is available in a wide range of materials, finishes, and configurations, ensuring every item fits seamlessly into your office environment. From ergonomic designs that prioritize employee well-being to statement pieces that leave a lasting impression on clients, we deliver tailored solutions that elevate your workspace.

Made with high-quality craftsmanship and attention to detail, our UK-made furniture is built to last, offering durability and style. Whether you're renovating or starting fresh, trust us to create furniture that reflects your brand and enhances your office's productivity and appeal."

BENCH DESKING with Goal Post Legs

Team Bench

Our new TEAM Bench platform has been designed to use the minimum number of components possible. The system utilises an innovative leg to rail connection to create a stable product whilst providing a cost-effective solution.

Telescopic Bench

Our Telescopic Bench Desking is a stylish solution for the busy modern office. It is extremely flexible where numbers can be increased or decreased with little or no fuss.

Bench is space efficient, cost effective, and it's clean, uncluttered lines are currently in vogue.

Team Bench under frame

Telescopic Bench under frame

To compliment this range, we also offer a large selection of desk screens, including fabric screens with an aluminium extrusion that matches the legs of our Bench system (excluding Raw) and acrylic glazed screens in a choice of colours.

Team Bench Desking - Back to Back

- * Back to Back Bench Desking
- * Unlimited seats using Back to Back 2 seat extension
- * Fixed rails
- * Shared cable trays
- * 25mm Cut Back Tops
- * Screens sold separately

Our new TEAM Bench platform has been designed to use the minimum number of components possible. The system utilises an innovative leg to rail connection to create a stable product whilst providing a cost-effective solution.

Telescopic Bench Desking - Back to Back

- * Back to Back Bench Desking
- * Unlimited seats using Back to Back 2 seat extension
- * Telescopic Beam with cable trough for smaller cable capacity requirements
- * Supplied with Scallops in Tops
- * Tops also available with ports (on request)
- * Additional Leg colour options available (extra cost)
- * Screens sold separately
- * Cable trays sold separately for larger cable capacity requirements

The newest addition to our extensive Bench Desking range is the excellent new Electric height adjustable insert kit for existing bench desking without the need to replace legs or desk tops.

Utilising the existing frame of the bench desk, the telescopic beam is replaced by the insert kit, allowing height adjustment from 740mm - 1390mm at the touch of a button. Whilst retaining the use of cable trays and screens.

For D600mm and D800mm Tops only.

CLASSIC DESKING

Greet Desk

Our panel end desking offers a classical, executive appearance, giving a premium feel within the office environment. We offer a vast range of configurations meeting the demands of a modern busy office environment with single desks, radial workstations and stylish telesales desks.

We also offer an updated version of the panel end desk which has full modesty panels and a floating top bringing the traditional panel end desk into modern times.

Our traditional cantilever range of desking is supported by a fully welded, double upright, silver cantilever leg frame, designed and engineered to offer a robust and durable solution, whilst still offering a stylish flexible appearance which will enhance your office for many years to come.

HEIGHT ADJUSTABLE DESKING

There was a time when sit-stand desks were a curiosity seldom seen inside a regular office setting . That has now changed, in large part due to reasearch showing that the cumulative impact of sitting down all day for years is associated with a range of health problems, from obesity to cancer.

Sit-stand desks increase focus, alertness and activity levels. These all support each other. When standing it is easier to release restless energy. Combine that with good circulation, stable blood sugar and an active metabolism and it is easier to focus on the task in hand.

ASPIRE Lite Height Adjustable Desking

STORAGE SOLUTIONS

A range of Storage solutions to maximise use of the workplace. A range of pedestals, bookcases, cupboards and filing cabinets to compliment our desking ranges.

All storage and pedestals have solid 18mm back and 25mm tops unless otherwise stated.

All shelves are 25mm thick and locks fitted with snap over key fob.

Heavy duty ball bearing runners are fitted on all drawers and filers and pedestals are fitted with anti-tilt .

STORAGE WALL AND TEACHER WALL

Our Storage wall system is a floor to ceiling modular storage system which can be customised to fit into whatever space you have available and fully utilising the entire height of your office for storage. Storage Wall may be installed against an existing wall or installed back to back to provide storage on both sides

Lower cupboards and trays units are also part of this versatile range making a cross between Storage Wall and Teacher Wall.

Bespoke heights to your specification also available, POA.

CONE - Static Stools

Cone Stool - Static base or Weeble Base.

Movement is essential for maintaining overall well-being, focus and energy levels, especially in work or learning environments. Weeble stools encourage dynamic sitting, allowing users to tilt, sway, and shift naturally. This gentle movement engages core muscles, improves posture, and increases blood flow, helping to reduce fatigue and enhance concentration throughout the day. Constant movement prevents the stiffness and achiness often associated with prolonged sitting. Perfect for active seating, Weeble stools bring both fun and function to any space.

Bespoke Pastel Colour Finish - additional charge per order £190.00

Splinta Connekt Meeting Tables

SPLINTA CONNEKT is a modular meeting/boardroom table system. Consisting of real oak Splinta legs and a series of connecting rails to construct a rigid, highly stable underframe. The slimline profile of the connecting rails increase knee space around the entire perimeter of the table and cleverly designed intermediate legs provide support on long spans and assist when splicing together multiple table tops for large configurations.

Splinta Meeting Tables with Steel Legs

SPLINTA Round Steel is a modular meeting/boardroom table system. Consisting of 38mm round steel legs and a series of connecting rails to construct a rigid, highly stable underframe. The slimline profile of the connecting rails increase knee space around the entire perimeter of the table and cleverly designed intermediate legs provide support on long spans and assist when splicing together multiple table tops for large configurations.

RESIDENTIAL FURNITURE

Our range of Residential Furniture offers a high quality, durable and flexible range of furniture suitable for schools, colleges, universities, care homes and even the home environment.

This range is constructed entirely from 18mm MFC, including backs and drawer boxes, and fitted with smooth ball bearing runners.

The durability of this range makes it perfect for any setting.

Mixing colours of the carcass, doors and drawer fronts creates a contemporary and stylish look without compromising on quality.

Furniture Sustainable Solutions

Refurbished Office Furniture

Reduce your business costs and environmental impact by investing in our refurbished office furniture.

Are you looking for a more sustainable and cost effective way to furnish your office space? At the heart of our service lies your commitment to circularity and quality. We breathe new life into high-end pre-owned office furniture, transforming your workspace into a environmentally conscious workspace.

We're proud to serve the businesses of Hampshire, as we share the belief that one of the most impactful ways to nurture our planet is by embracing reuse. Our dedicated team is ready to tailor our solutions to your unique office furnishing needs. Expect to be greeted with a friendly voice, ready to engage and answer your queries within 24 hours.

Office Furniture Refurbishment

Refurbish your existing office furniture, reduce your environmental impact and save money.

With our partners we have been refurbishing office furniture for over 30 years and this was originally intended for the resale side of the business but, as time has gone on we have been working with our clients to refurbish their existing office furniture.

Seating reupholstery is by far our most in demand refurbishment service as the cost savings in prolonging the life of an expensive ergonomic chair is far less than replacing it for a brand new one.

Clear Your Office Furniture

Join the sustainability movement & turn your redundant office furniture into a positive impact with 100% reuse and recycling guarantee with zero-landfill office clearances!

Say goodbye to environmental concerns during office clear-outs with our comprehensive green solution. Our team is dedicated to reducing the carbon footprint and leaving a positive impact on the planet. It's essential to office furniture reclaim to reduce waste and reuse resources.

Redundant office furniture is either refurbished and resold or we recycle office furniture through our network of suppliers, ensuring the highest level of sustainability and ethical disposal practices. Get in touch with us today regarding zero-landfill office clearances!

Why choose a zero-landfill office clearance?

In today's world, businesses are leaning towards practices that both support the environment and maintain ethical standards. The necessity of clearing offices can be a challenge, but it doesn't need to contribute to the planet's problems.

Reduce your business costs and environmental impact by investing in our refurbished office furniture.

Zero-landfill Office Clearing Reporting

Transparency is a vital aspect of our office clearance process and our reports are designed to provide a comprehensive and detailed account of the furniture items that will be repurposed or broken down for recycling. We should office furniture recycle to promote sustainability in our workplace.

We take great care to ensure that all furniture is handled responsibly, whether it is fit for reuse or not.

Furniture that is in good condition is either resold to local businesses, providing them with cost-effective solutions, or donated within our charity network, supporting those in need.

Furniture that is not suitable for reuse is brought back to our facility where it is broken down into its component materials for recycling.

For example, plastic from office chairs is granulated and metal is recycled into various applications.

This not only helps to reduce the amount of waste that ends up in landfills but also supports the circular economy by repurposing materials back into the manufacturing process.

Resource Conservation

Our methods mean reusing and recycling, ensuring materials like timber, metal, and plastic aren't wasted on new production.

Boost Your Reputation

Show your stakeholders, employees, and customers your commitment to ethical business practices. Our service amplifies your dedication to sustainability and can enhance brand credibility.

Reduce Your Carbon Footprint

Keep waste out of landfills and lessen the environmental impact, promoting a healthier planet.

Financially Smart

Not just eco-friendly, our approach can be wallet-friendly. Save on disposal fees, possibly resell furniture, or secure a responsible recycling certificate, reducing operational costs.
